Fire & Safety

In recent years, the requirements for fire safety cover have increased manifold. The setting up of Industrial Plants and the construction of larger and taller buildings have multiplied the problems of firefighting. The fire services need to be organized properly with adequate infrastructure and equipment for keeping pace with the advancement of technology and economic growth.

Fire causes havoc and only effective measures will ensure that our Premises will remain protected and safe. TechArt provides a variety of latest firefighting solutions along with fire alarm systems for all kinds of industrial, commercial, and small & large buildings.

Security & Surveillance

With the ever-growing expansion of the business world, the need for Digital Security is an essential investment that no enterprise can disregard. Managing the day-to-day operations of your enterprise is a challenging task. Added concerns of theft and security can be a nightmare for enterprise owners who are in constant fear of losing it

TechArt understands the specific needs of your enterprise and offers integrated solutions for the safety of your premises, warehouse, and your sensitive & crucial data.

Building Automation

Maintaining control of large buildings can be a huge challenge. In addition to rising utility costs, some areas can be too hot, some too cold. Lighting levels are frequently inconsistent and misaligned with the work requirements of the area. And, of course, it's even worse if you're trying to manage multiple buildings.

TechArt provides solutions to most of these challenges through Building Automation Systems which delivers great energy efficiency, lower operating and maintenance costs, better indoor air quality, greater occupant comfort, and productivity.

Over the years TechArt had increased building efficiencies by introducing the cost-efficient and reliable solutions, ranging from the standalone system for small buildings to large integrated solutions for large mixed-use buildings

Good maintenance is vital, no matter what kind of maintenance we're talking about. That's why Annual Maintenance Contracts (AMCs) are so popular and so important. When a business has these in place, they know for sure that their maintenance needs will be taken care of during the year ahead. That can apply to Fire Systems, Building Maintenance, Digital Security Systems, and IT & Data management systems maintenance, etc.

At TechArt, the relationship with the clients does not end with the handing over of the projects, as we believe in Sales Support. In this tune, TechArt does this most crucial and vital function to ensure that our installations at various sites are running smooth and giving desired results we work relentlessly 24 X 7 to provide the best of our services and our goal is to make our customers delighted.
